UNDERWATER MAYHEM!

Do you think they will be safe?

They should be. If not, they can still contact Viper Tower!

Soon the Aquascout is sailing into the open sea...

Is everything all right, Father?

No, Teela...

A strange energy source is pulling us off to starboard. I have to keep adjusting our course!

What can it be?

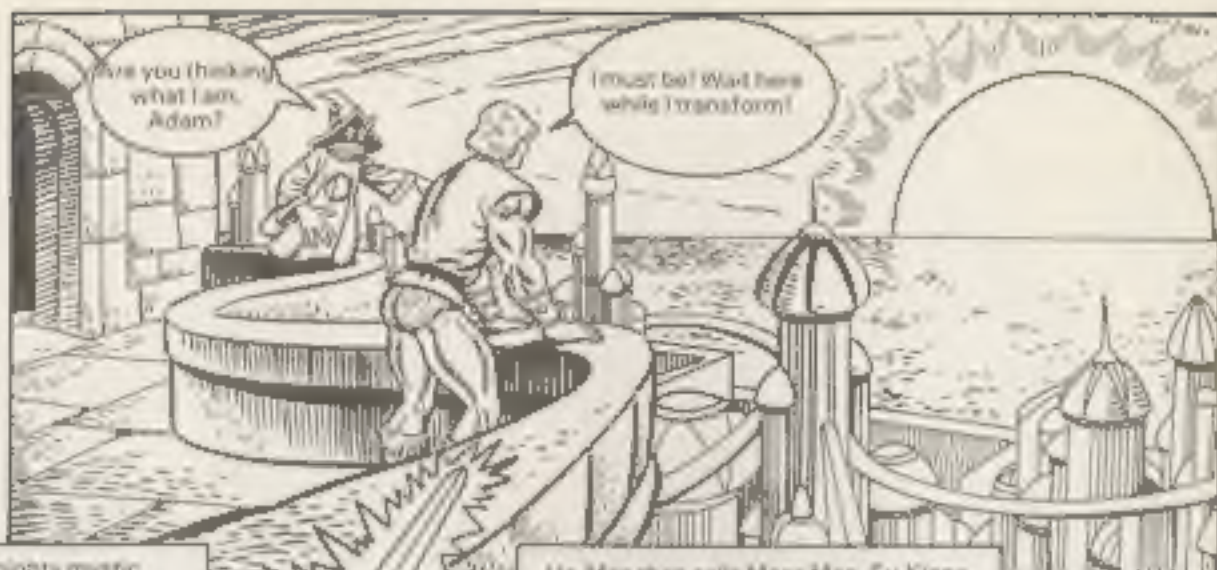

By the Elders! The source has just been boosted! I can't fight against it any longer... we're under its control!

At that moment, the Aquascout is pulled beneath the waves by the same energy source...

For several days Adam and Orko wait to hear word from their friends... but each day brings only silence!

Adam holds up the mighty mystic sword and speaks his sacred oath...

**By the Power of Grayskull...
I have the Power!**

He-Man then calls Moss Man, Sy-Klone, Snout Spout and Roboto for a briefing...

And we haven't heard from them! We'll use the Sub-cruiser and search for them!

I pray we are not too late!

Minutes later the Sub-cruiser ploughs through the calm sea...

Using what they know of Man-A1-Arms, intended course they set off for the Charobic Ocean.

In an effort to clear away the clinging seaweed the Heroic Warriors swim outside.

Mer Man immediately puts part two of Skeletor's plan in action...

Attack!

The Warriors suddenly find they have a new menace to face.

Split up! We must stop these creatures before the seaweed does permanent damage to our Sub-chamber!

Master Mail

Dear Scrollos,
How far is Eternia from the sun?

CRAIG WILSON,
Cumbernauld.

I'm not sure whether you mean from our sun or its own, Craig, so I'll tell you both. Eternia is 250,000,000 miles from its own sun and 1,000,000,000,000 miles from our sun!

Dear Scrollos,
Who is the master of Ninjor and Scare Glow and what is Mosquitor?

GIRDWOOD ANDERSON,
Falkirk.

As seen in Adventure Magazine No.9, Girdwood, it is Skeletor who is the master of the first two nasties that you mention. As for Mosquitor, you could say that he is the Evil Horde's vampire! He is an evil energy-draining insectoid who moves in on his prey, stings them hard and sucks them dry!

Why is there a computer at the

bottom of Master Mail?

MARTIN MONKSFIELD,
London.

The picture of the computer, Martin, signifies the way in which I receive information about the Masters. Once it is tuned in, my computer decodes signals from Eternia so that I can relate the stories to you!

Dear Scrollos,
How long are Spikor's spikes and how far can Mantenna see?

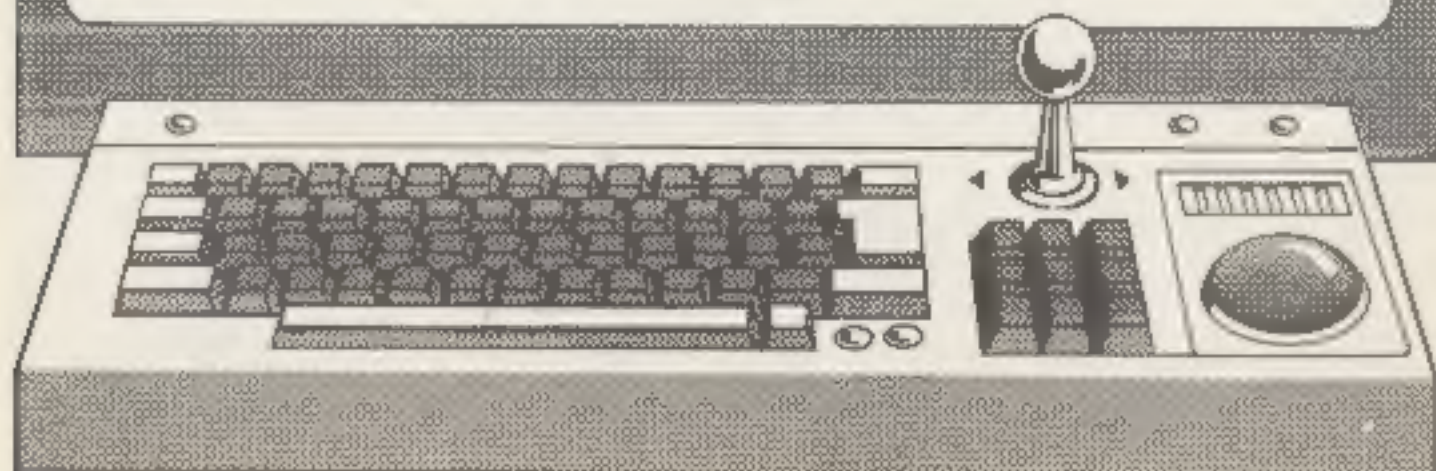

DOUGLAS SILLETT,
Somerset.

Right then, Douglas, Spikor's spikes are 20cm long. Mantenna can see twice as far as anyone else because of the elevation he can achieve, a bit like a periscope!

Dear Scrollos,
For how long has King Randor reigned?

LIAM MORGAN, Poole.

Easy question, easy answer, Liam. 26 years.

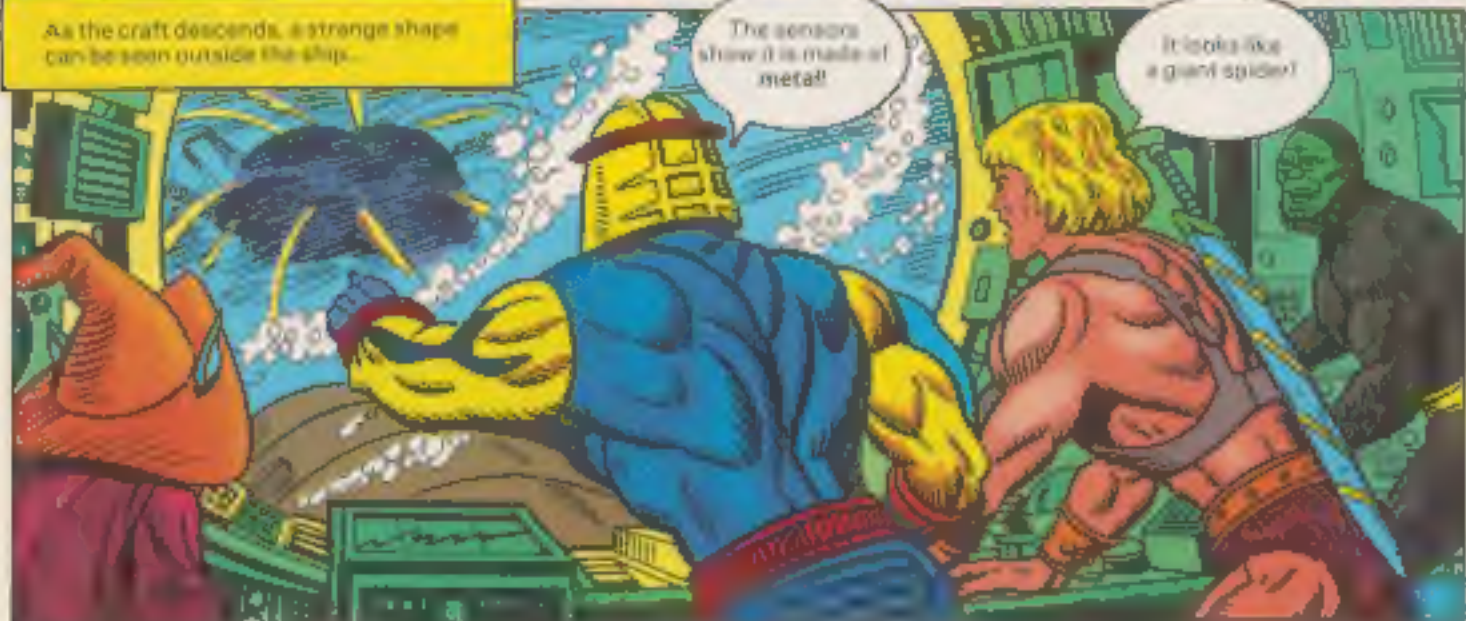

Because the craft can travel faster on the surface than below, He-Man takes the craft up... but as the ship breaks the surface...

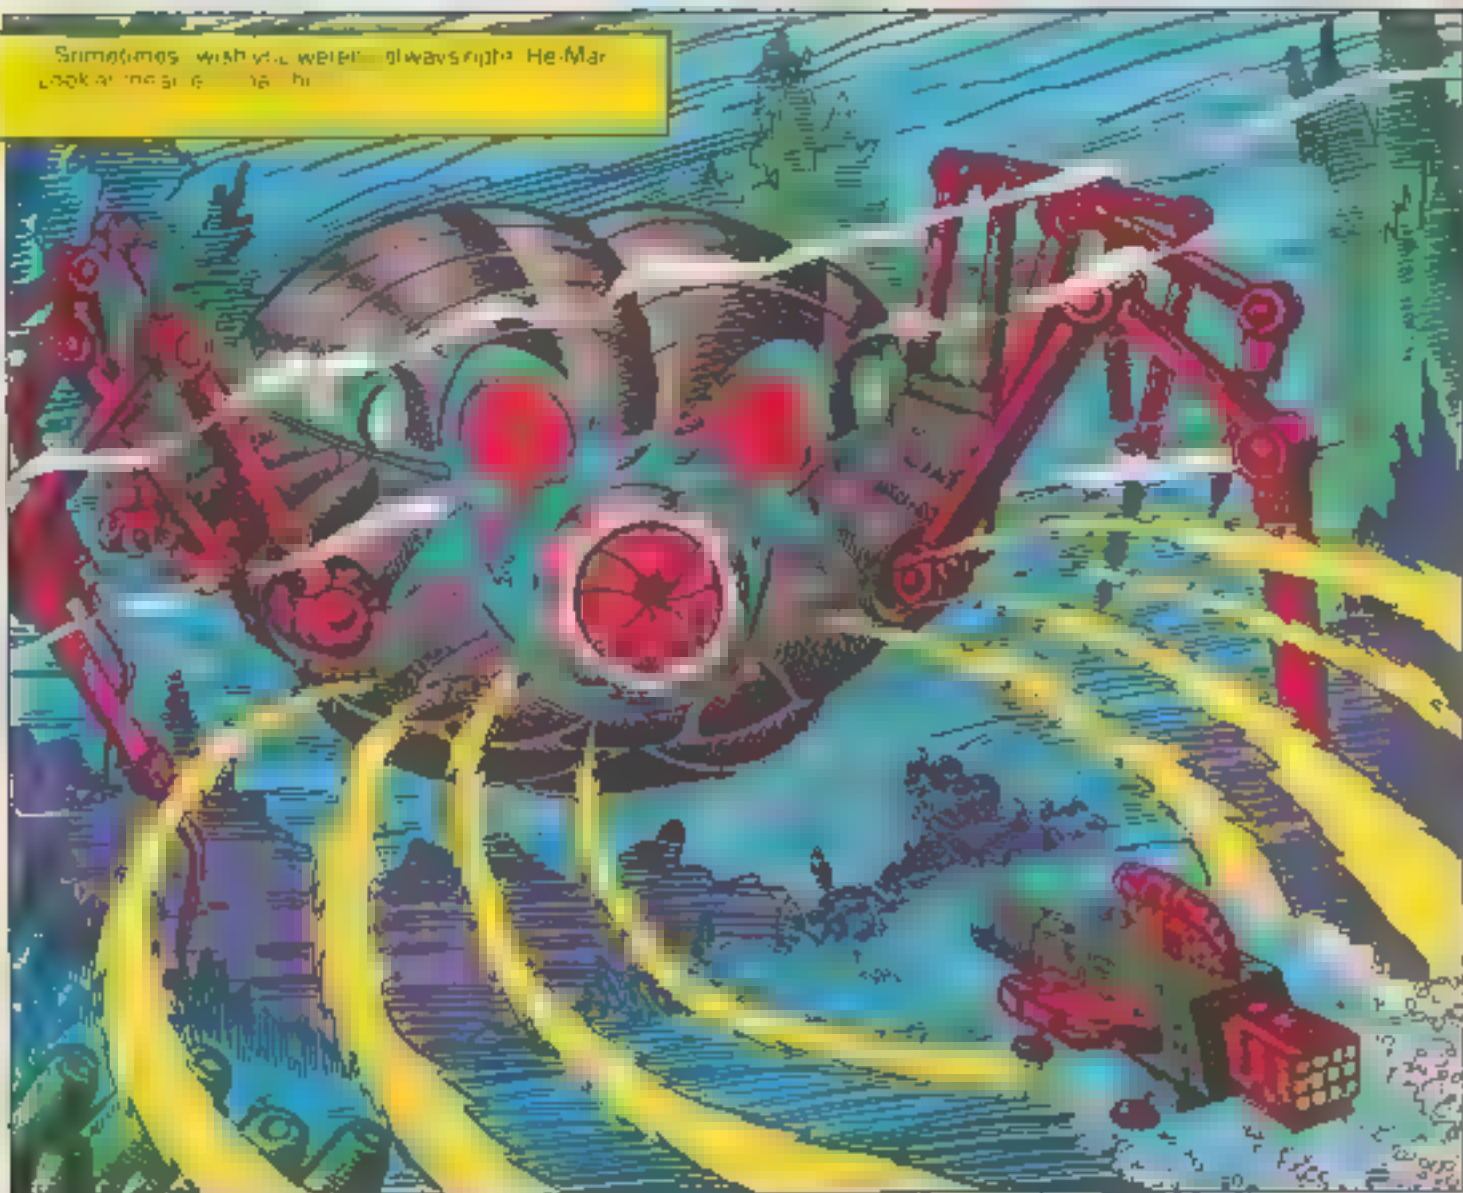

The craft is slowly pulled back beneath the ocean surface.

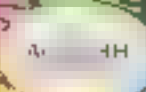

As the craft descends, a strange shape can be seen outside the ship.

Sometimes wish you were always right. He-Man
look at me, I'm right.
